CHAPTER 1 - GENERAL REQUIREMENTS

Purpose

This document prescribes standards, specifications and edits for software used to produce paper Form W-2c, Statement of Corrected Income and Tax Amounts and paper Form W-3c, Transmittal of Corrected Income and Tax Statements. It provides employer human resource departments with guidance necessary to properly compile payroll data used to produce Forms W-2c/W-3c and furnishes programmers with requirements for properly producing the physical Forms W-2c/W-3c. It also provides paper reporting examples which illustrate (1) how to correct several types of common wage reporting errors and (2) the relationship between the data on Forms W-2c/W-3c and Internal Revenue Service (IRS) Form 941c, Supporting Statement to Correct Information.

We encourage you to use software which complies with the standards, specifications and edits in this publication. By complying with these guidelines, you can help (1) improve the accuracy of wage records used by the Social Security Administration (SSA) to determine eligibility for and amount of Social Security benefits and (2) reduce resources used by the private sector and the Federal Government in administering the annual wage reporting process and later on in the SSA/IRS wage reconciliation process.

PLEASE NOTE: The principle instructions for preparing paper Forms W-2c and W-3c are published by the IRS. See Appendix B.

Background

Since tax year (TY) 1978, employers have been required to submit Copy A of Forms W-2, Wage and Tax Statement and W-3, Transmittal of Income and Tax Statements directly to SSA for crediting employee wage records. Employers should use Forms W-2c/W-3c to correct errors on Forms W-2/W-3, and file Copy A of the corrections with SSA (see Where to file). Other "payers" can only use paper (not magnetic media) Forms W-2c/W-3c to correct previously filed Forms W-2P. However, SSA no longer processes Forms W-2c which correct W-2P data. W-2c reports correcting W-2P data should be forwarded to IRS. When you inform IRS of corrections to previously reported data on Form 941c, you must determine whether Copy A of Forms W-2c and W-3c should also be submitted to SSA.

Electronic Access

You can obtain additional copies of this SSA publication by using a personal computer and modem to access either the SSA or IRS electronic bulletin board systems (BBS). You can access the SSA-BBS by dialing (410) 965-1133 or the IRS-BBS by dialing (304) 264-7070. Internet subscribers can now read and print this publication directly from the Employer Information section of SSA Online @ WWW.SSA.GOV.

Inquiries

Operational or technical questions should be directed to your respective regional magnetic media coordinator listed in Appendix A. Comments or suggestions regarding this document should be forwarded to the:

Social Security Administration
Office of Financial Policy and Operations
ATTN: AWR Software Standards Project
P.O. Box 17195
Baltimore, MD. 21235

Tax questions or questions on tax law and regulations (including calculating amounts which are to be reported) must be addressed to the IRS Information Reporting Call Site at telephone number 1-304-263-8700 (Not a Toll Free Number).

Magnetic Media Filing

This document does not include magnetic media filing requirements. For copies of magnetic media filing instructions for W-2c/W-3c correction information, you should contact your respective magnetic media coordinator listed in Appendix A. Using a personal computer and modem, you may also obtain this information through either the SSA or IRS electronic bulletin board systems (BBS). You can access the SSA-BBS by dialing (410) 965-1133 or the IRS-BBS by dialing (304) 264-7070.

Criteria for Producing Paper Correction Reports

Paper Forms W-2c and W-3c should meet the following criteria:

1. Wherever possible, entries should be systems generated from verified data to reduce the risks inherent with manual entry/reentry.
2. W-2c data for each employer should be segregated based on type of employment previously reported on the Form W-2 or W-2c being corrected (e.g., regular Social Security tax employment versus Medicare Qualified Government Employment (MQGE)) to permit (a) one employee W-2c submission for each type of employment and (b) associating each type of W-2c submission with one W-3c indicating the corresponding kind of payer.
3. Information should be entered in the appropriate items or blocks based on the types of corrections and the type of employment involved.
4. Repetitive information, such as the employer's name, address, and Employer Identification Number (EIN) should be checked for consistency when preparing the forms.
5. Where appropriate, only alphabetic, numeric or special character (i.e., parentheses) data should be entered.
6. Corrected tax withholding amounts should be consistent with the taxable wages and rates for Social Security and/or Hospital Insurance (Medicare) for the TY being corrected.
7. Amounts designated "As Previously Reported" in column A on Form W-2c should match to corresponding amounts reported on;
 - a. ALL previously reported W-2s for the same TY, Social Security Number (SSN), EIN and employment type or,
 - b. A SINGLE Form W-2 or W-2c for the same TY, SSN, EIN and employment type.
8. Do not produce W-3c entries before all necessary W-2c entries are prepared. W-3c entries should represent the combined total of all corresponding W-2c entries.
9. Use control totals from column C of the W-3c (in conjunction with control totals from previously filed Forms W-3) in matching and reconciling the annual sum of quarterly amounts reported on IRS Form 941 or comparable forms (including any Forms 941c)

for the same TY and same EIN. Be alert for adjustments reported on Form 941c submissions to ascertain that they belong to the current year.

10. Employers may submit as many Form W-2c paper correction reports as necessary. It is not required that 250 or more corrections to Forms W-2 be reported on magnetic media.

CHAPTER 2

QUALITATIVE STEPS FOR EMPLOYERS

The following checklist contains a number of basic, qualitative steps you can take to help accurately report corrections to employee wages and protect their future benefits under the Social Security and Medicare programs.

Verifying and Correcting Social Security Numbers and Names

- [] Encourage employees to verify basic information each year on their copies of Forms W-2, particularly their name and SSN, and report any errors promptly to you as a basis for preparing a W-2c correction report.
- [] When correcting an employee name (due to marriages, divorces, etc.), remind employees to promptly report those name changes to SSA by completing and submitting a new Form SS-5, Application for a Social Security Card to SSA.

Initial Correction Reporting Activities

- [] If you detect differences between amounts reported to SSA and/or IRS for Social Security wages/tips and/or Medicare wages/tips, evaluate whether you should submit correction reports to SSA, IRS or both agencies.
- [] If incorrect amounts were reported only to SSA and you have not received a notification of correction from SSA, then corrections must be submitted to SSA.
- [] If incorrect amounts were reported to both SSA and IRS and you have not received a notification of correction, then you must submit corrections to both agencies.
- [] If SSA notified you that reported amounts have automatically been changed and:
 - o You agree with the change(s), no correction(s) should be submitted to SSA. However, IRS correction forms may be necessary to ensure amounts reported to IRS are consistent with the automated change(s) made by SSA.
 - o You disagree with the change(s), then contact SSA for instructions to resolve the matter. (Instructions for contacting SSA are printed on the notice you received.)

NOTE: SSA only changes W-2 data when we find that Medicare or Social security wages were reported inconsistently or incorrectly.

Preparing Correction Reports

- [] Ensure that your EIN reported on Forms W-2c and W-3c (and, if applicable, Form 941c) is the correct number issued by the IRS and that you reported the EIN consistently on all three types of forms.
- [] Use standard or approved Forms W-2c and W-3c. See IRS Publication No. 1223, Specifications for Private Printing of Substitute Forms W-2c and W-3c for instructions.
- [] Use a font that is not smaller than 12 characters per inch
- [] Do not use a new Form W-2 or W-3 to correct a previous report submission - use a Form W-2c or W-3c instead.
- [] When correcting more than one Form W-2 issued to an employee:
 - o Include data from ALL Forms W-2 for that employee (under the same EIN and type of employment for the TY being corrected) or,
 - o If appropriate, you can submit a Form W-2c to correct a SINGLE Form W-2 or W-2c.
- [] Separate Forms W-2c/W-3c must be prepared for each year needing correction.
- [] Check that the Form W-3c line item entries balance to the sum of corresponding line item entries on the accompanying Forms W-2c.
- [] Do not "zero-fill" (e.g., 0.00) any W-2c line items which you are not correcting - leave these line items blank.
- [] Do not prepare Form W-2c to reallocate back-pay under a statute to the period in which it should have been paid (see Chapter 3 for more information on reporting these amounts).
- [] TYs Prior to 1991: Report corrections to Social Security (full-FICA) wages, tips or taxes in items 3, 4 and 7 respectively.

- [] TYs Later Than 1990: Report corrections to Medicare wages and tips and Medicare tax withheld in line items 5 and 6 respectively.
- [] MQGE: If you previously reported MQGE wages/tips and tax withheld (wages subject only to the 1.45% Medicare tax):
 - o Report corrections to Medicare wages and tips and Medicare tax withheld in line items 5 and 6 respectively, regardless of the TY pertaining to the correction.
 - o Report total Medicare wages and tips paid to an employee whenever you are correcting Social Security wages and/or Social Security tips for TYs later than 1990.
- [] You can only correct W-2P data using paper Forms W-2c and W-3c.

Submitting Correction Reports

- [] Ensure that a Form W-3c accompanies each W-2c submission (unless you are only correcting employee names and/or SSNs).
- [] If you prepare your W-2cs on magnetic media and submit them to SSA, do not submit the paper version of this same information to SSA.
- [] Do not send Copy A of Form W-2c to SSA if you are only correcting state or local wage and tax information.
- [] Send paper Forms W-2c and W-3c that correct Form W-2P data to IRS; all other Copy A of Forms W-2c and W-3c should be sent to SSA.

CHAPTER 3

STANDARDS, SPECIFICATIONS AND EDITS

Introduction

This chapter provides standards, specifications and edits for preparing Copy A of paper Forms W-2c and W-3c for SSA. These criteria which follow are segregated to address two audiences - namely (1) employer human resource departments and (2) software developers who write software used to produce the physical paper wage and tax statement forms.

The standards for human resource departments outline the employer and employee wage and tax data which employers should compile in preparing Copy A of paper Forms W-2c and W-3c. These standards are comprised of guidelines which identify what data to compile, describe what the data should represent and specify certain data characteristics which may identify suspect or incorrect data. Employers should adopt these guidelines as part of their organizational procedures to help ensure the accuracy of payroll data used in wage and tax statement reporting and minimize common reporting problems. The specifications and edits constitute guidelines for software developers who write programs which produce the physical W-2c and W-3c paper forms. These guidelines prescribe which data to print in each Form W-2c/W-3c item (or box), data entry content requirements, data entry formats and edits which may identify suspect or incorrect entries. Software developers should incorporate these specifications and edits in their wage and tax statement software for paper forms to help ensure accurate annual wage reporting.

Changes in Criteria from Preceding Years

ALL REPORTERS:

- o Form W-2P: Effective with TY 1991 reports, Form 1099-R replaced Form W-2P. Employers should file Form 1099-R with the IRS. SSA no longer accepts for processing any W-2P reports or W-2c reports which correct W-2P reports. Form W-2c copy A information that corrects W-2P reports should be sent to IRS.
- o Reporting Corrections: If you filed more than one Form W-2 for an employee under the same EIN, there are two ways you can prepare a correction:

1. You can file a correction report which corrects a SINGLE Form W-2 or W-2c previously filed, OR
2. You can reflect the wage totals of ALL the Forms W-2 that were submitted under the same 9-digit EIN for the same employee SSN, TY and type of employment.

NOTE: If you have issued multiple Forms W-2 to an employee and you are issuing a Form W-2c to correct a single Form W-2, it is particularly important to accurately report the "previously reported amount" in column A for Social Security and Medicare wages and tips. In these instances incorrect column A amounts will result in an incorrect employee earnings record.

- o Reporting Back-pay Under a Statute: Back-pay under a statute is a payment by an employer pursuant to an award, determination, or agreement approved or sanctioned by a court or administrative agency charged with enforcing a Federal or State statute protecting an employee's right to employment or wages. IRS and SSA treat back-pay under a statute differently. For tax purposes, IRS considers back-pay under a statute as wages for the year in which the back-pay award is paid. In contrast, for earnings record maintenance purposes, SSA treats statutory back-pay as wages paid in the periods in which they should have been paid.

Employers should report statutory back-pay award amounts as wages for the year received by the employee on Forms W-2 and W-3. If an employer did not include back-pay amounts on Forms W-2/W-3 for the year received, the employer should prepare and issue all copies of Forms W-2c/W-3c to report those additional wages for the year received by the employee. For SSA's earnings record maintenance purposes, when the year in which the back-pay is paid differs from the year in which the wages should have been paid, employers should also prepare a separate report (not a W-2c report) for SSA to reallocate the back-pay to the TY the wages should have been paid. Employers can obtain the back-pay reallocation reporting requirements from the nearest Social Security office. Using a personal computer and a modem, employers can also obtain back-pay reallocation reporting instructions from the SSA-BBS by dialing (410) 965-1133.

STATE, LOCAL OR FEDERAL REPORTERS:

- o State, local and Federal government employers should follow the instructions below when correcting just Social Security wages and/or tips when MQGE wages were also paid to the employee during the TY.

TAX YEAR(S) PRIOR TO 1991

1. Corrections for full-FICA wages, tips or taxes:

Reflect these in the boxes for Social Security tax withheld, Social Security wages, and Social Security tips ONLY.

2. Corrections for MQGE wages:

Reflect these changes in the boxes for Medicare wages and tips, and Medicare tax withheld.

TAX YEAR(S) 1991 AND LATER

1. Corrections to JUST Social Security wages and/or tips:

MQGE Wages are NOT paid

If you need to correct just Social Security wages and or tips, enter just this information in the boxes for Social Security Wages and/or Social Security tips.

MQGE Wages are also paid

If a State, local or Federal government employer needs to correct JUST Social Security wages and/or Social Security tips, for an employee who was also paid MQGE wages, the employer **MUST** complete the Medicare wages and tips box and indicate the TOTAL Medicare wages, for the same TY, including MQGE wages even if no change is needed to the total original Medicare/MQGE wages previously reported. In many correction situations, this will enable employers to prepare just one Form W-2c/W-3c.

2. Corrections to JUST Medicare Wages:

If you are correcting just Medicare wages, enter just the Medicare wage information in the Medicare wages and tips box. You need not show any Social Security wages/tips if these wages were correct on the previously filed report(s).

Standards, Specifications and Edits for Forms W-2c and W-3c

The standards, specifications and edits which follow are designated as either required or optional. Items designated as required on Copy A of Forms W-2c and W-3c constitute data required to be submitted to SSA for either (1) use by SSA for programmatic purposes and/or

(2) accumulation and transmission to IRS for tax processing and enforcement purposes. Items designated as optional constitute other data not required to be submitted to SSA on Copy A but which may be required for tax reporting purposes on other copies of Forms W-2c.

PLEASE NOTE: The principle instructions for preparing paper Forms W-2c and W-3c are published by the IRS. See Appendix B.

CHAPTER 4

REPORTING EXAMPLES FOR PREPARING PAPER FORMS W-2c, W-3c and 941c

Introduction

The purpose of this chapter is to provide examples of properly prepared paper correction reports to help employers understand and comply with the guidelines in this document. The correction reports (Forms W-2c, W-3c and 941c) are used to correct errors on reports previously filed. Submitting properly prepared correction reports is important because it helps protect the public's investment in the Social Security trust funds, including entitlement to benefits upon retirement, disability or death, and the Medicare program. It can also help prevent wage reconciliation discrepancies between SSA and IRS records. Included are examples of properly prepared correction reports along with incorrect W-2 reports. The reporting examples illustrated in this chapter cover:

- o Form W-2c, Statement of Corrected Income and Tax Amounts;
- o Form W-3c, Transmittal of Corrected Income and Tax Statement; and
- o Form 941c, Supporting Statement to Correct Information.

Inquiries

Questions concerning the examples and information in this chapter should be directed to your respective regional magnetic media coordinator listed in Appendix A (page 46). However, tax questions or questions on tax law and regulations (including Form 941c) must be addressed to the IRS Information Reporting Call Site at telephone number 1-304-263-8700. Suggestions for improving this chapter should be directed in writing to the address in Chapter 1 (page 2).

Background

When you inform IRS of correction(s) to previously reported data on Form 941c you must also determine whether similar reports (Forms W-3c and W-2c) should be submitted to SSA as well. A study performed by SSA revealed that, of 941c forms received by the IRS:

- o Less than half of the employers who had 941c corrections submitted corresponding

correction reports to SSA.

- o There was no original wage report filed with SSA for 1 percent of the 941cs filed with IRS.

The effects of the above conditions can result in incorrect Social Security benefit payments or loss of benefits for Social Security claimants.

Case Scenario

Cabot Cove completed distributing W-2 forms to employees and submitting annual wage reports to SSA by January 31, 1997. Cabot Cove also submitted the final (fourth quarter) 941 return to IRS before the due date. On February 14, 1997 Cabot Cove reviewed the previous year payroll register and the employer's copies of Form W-2 against the employee master file and discovered errors which affected the TY 1996 Forms W-2, W-3 and 941. After verifying the errors and confirming that all adjustments related to the Form W-2 have been identified, Cabot Cove prepared the necessary correction reports.

The Forms W-2c, W-3c and 941c prepared by Cabot Cove are correct because they meet the following criteria:

Adjusted/Corrected Payroll Register versus Form 941c

- o Sections III and IV, Line Item 5 (column b and c) and Line Item 7 of Form 941c balances to the corresponding corrected payroll register summary data (Exhibits 1-1 through 1-4) for each of the following:
 - a. Taxable Social Security wages and taxable Social Security tips; and
 - b. Taxable Medicare wages and tips.
- o Cabot Cove clearly explained the 941c adjustments in Part V of the Form 941c.

Form 941c versus Form W-3c

- o The employer's EIN is valid and the name is correct on each type of form; both are reported consistently.
- o The net adjustments (increases or decreases) from the Form W-3 balance to net adjustments in sections III and IV of the Form 941c for the following:
 - a. Social Security wages and tips; and
 - b. Medicare wages and tips.

- o Regarding the Form W-3c, Cabot Cove properly corrected erroneously reported Federal income tax withheld in item 2 and explained all net decreases in Box 22.

Form W-3c versus Forms W-2c

- o Each Form W-3c identifies the proper type of employment in Box f for the accompanying Forms W-2c.
- o The sum of all wages and tax withheld in column (a) on the Forms W-2c balance to the aggregate corresponding wages and tax withheld in column (a) on the Form W-3c.
- o The sum of all wages and tax withheld in column (b) on the Forms W-2c balance to the aggregate corresponding wages and tax withheld in column (b) on the Form W-3c.
- o The sum of all adjustments in column (c) on the Forms W-2c balance to the aggregate corresponding adjustments in column (c) on the Form W-3c.
- o Regarding the Forms W-2c:
 - a. All corrected:
 - o SSNs are valid;
 - o Employee names are properly printed (i.e., first, middle initial, last) and are consistent with the names printed on their Social Security cards.
 - o EINs are valid and both the EIN and employer address are consistently reported on each form; and
 - o Money amount boxes are properly prepared in that they do not contain alpha entries, negative amounts or special characters (except for column c), or punctuation.
 - b. Cabot Cove accurately reported the previously reported amounts to be changed in column A.
 - c. Cabot Cove reported total Medicare wages and tips paid when correcting Social Security wages for employees who also received MQGE wages.

The following scenarios illustrate correction reporting for the Cabot Cove School District for TY 1996 reports. The scenarios consist of Forms W-2c, W-3c and 941c together with the incorrect Forms W-2. For each case, the properly prepared Form W-2c follows the incorrectly prepared and submitted Form W-2 and the description of the W-2 errors. The case scenario also illustrates the properly prepared Forms W-3c and 941c.

FORM W-2: The W-2 above is incorrect because the preparer recorded the EIN in box d, "Employee's Social Security number" and used the employee's nickname in box e, "Employee's name" instead of the proper first name. The name used in box e should be same as the name shown on the Social Security card.

FORMS 941: The W-2 errors described above had no impact on Cabot Cove's TY 1996 Forms 941.

Form W-2: The W-2 above is incorrect because the preparer neglected to calculate the Medicare tax liability and failed to apply the correct tax rate to Social Security wages and tips (by applying the combined Social Security/Medicare tax rate of 7.65 percent to the total Social Security wages instead of the correct Social Security rate of 6.2 percent).

FORMS 941: The W-2 errors described above were also reflected on each of Cabot Cove's quarterly Forms 941.

The Social Security tax and Medicare tax are calculated as follows and entered in items 4 and 6 respectively:

Social Security tax withheld: $(\$31,515.00 + \$4,035.00) \times 6.2\% = \2204.10

Medicare tax withheld: $\$35,550.00 \times 1.45\% = \515.48

FORM 941C: This Form W-2c prompted a Form 941c Social Security tax adjustment decrease of \$1030.96 and Medicare tax adjustment increase of \$1030.96 (combined employee and employer contributions).

C. Mr. Alfredo Giuseppe Richardo Marano was reported on two Forms W-2--one W-2 for MQGE for \$30,000 and a separate Form W-2 for full FICA for \$24,000.

FORM W-2: Cabot Cove incorrectly categorized Mr. Marano's wages as subject to full-FICA for the period July 1 to the end of the year and inappropriately withheld Social Security tax. Mr. Marano should have been reported only on one Form W-2 as MQGE for the entire year.

FORMS 941: The W-2 errors described above were also reflected on Cabot Cove's 3rd and 4th quarter Forms 941.

The following W-2c facsimile illustrates the proper way to prepare the W-2c. It corrects the W-2 for wages subject to full-FICA shown on the previous page. Cabot Cove prepared one Form W-2c reflecting the total wages previously reported.

Cabot Cove prepared the above W-2c to delete the Social Security wages and tax (item 3 and 4) reported on the Form W-2 for wages subject to full-FICA. **Please Note:** State, local and Federal Government employers are required to complete item 5 (Medicare wages and tips) when they are correcting just Social Security wages and/or Social Security tips for an employee who earned MQGE wages during the year. Item 5 must reflect the TOTAL Medicare wages/tips paid for the tax year (TY). Therefore, because Mr. Marano earned MQGE wages during TY 1996, Cabot Cove is required to complete item 5, reflecting TOTAL Medicare wages, even though no Medicare wage/tip alterations are necessary.

FORM 941C: This Form W-2c prompted Form 941c adjustment decreases of \$24,000 to Social Security wages and \$2,976 to Social Security taxes (combined employee and employer contributions). Cabot Cove was also required to complete Part I (Signature and Certification), because Cabot Cove repaid the incorrectly withheld taxes to Mr. Marano.

D. John R. McNamara's work became covered for full-FICA effective July 1, 1996--instead of MQGE coverage earlier in the year. He was reported as MQGE for the entire year although he should have been reported as full-FICA for the period July 1 to the end of the year.

W-2 Wage and Tax Statement 1996

Copy A For Social Security Administration

FORM W-2: The W-2 above is incorrect because Cabot Cove failed to report the Social Security wages of \$27,000 and withhold Social Security taxes of \$1674 for the period July 1, 1996 to the end of the year. Upon recognizing this error, Cabot Cove collected the Social Security taxes from Mr. McNamara and prepared the Form W-2c illustrated on the next page.

FORMS 941: The W-2 errors described above were also reflected on Cabot Cove's 3rd and 4th quarter Forms 941.

The following W-2c facsimile illustrates the proper way to prepare the W-2c. It corrects the W-2 shown on the previous page.

Cabot Cove prepared the above W-2c to report the Social Security wages and tax (items 3 and 4). **Please Note:** State, local and Federal Government employers are required to completed item 5 (Medicare wages and tips) when they are correcting just Social Security wages and/or Social Security tips for an employee who earned MQGE wages during the year. Item 5 must reflect the TOTAL Medicare wages and tips paid for the TY. Therefore, because Mr. McNamara earned MQGE wages during TY 1996, Cabot Cove is required to complete item 5 reflecting total Medicare wages, even though no Medicare wage and tip alterations are necessary.

FORM 941c: This Form W-2c prompted a Form 941c Social Security wage adjustment increase of \$27,000 and Social Security tax adjustment increase of \$3,348 (combined employee and employer contribution).

E. Samuel L. Johnson is a retired employee who is 58 years old on December 31, 1996. He elected to continue his GTLI coverage through Cabot Cove. His insurance coverage is \$125,000. The calculated benefit amount as taxable income related to GTLI over \$50,000 is \$675.

FORM W-2: The above W-2 for Samuel L. Johnson is incorrect. Cabot Cove failed to (1) report the GTLI as Social Security and Medicare wages and (2) disclose the GTLI (using "code C") and uncollected Social Security and Medicare taxes (using "codes M and N" respectively) in Box 13. In addition, while Cabot Cove did not withhold or pay Federal income tax on the box 1 amount, the preparer erroneously reported Federal income tax in Box 2.

FORMS 941: Except for the Federal income tax reporting error, the W-2 errors described above were also reflected on Cabot Cove's 4th quarter Form 941.
